

EMPLOYEE HANDBOOK

1. Scope

This Employee Handbook describes the key elements of the human resources (HR) policy relating to the terms and conditions of employment and benefits and relevant procedures applicable to all employees. The handbook shall be subject to changes as and when deemed necessary. It is not intended to be exhaustive, as it is not possible to cover every aspect of Company HR policy in a single document.

2. Purpose, Mission, and Drivers

Our purpose, *shape living for the better*, is the reason we come to work every day. The purpose is embodied in everything we do: in every idea, every product, and every human interaction. It provides a strategic framework that provides the key ingredient for a strong, sustainable, and scalable organizational culture. It guides the solutions we create, the people we employ, the behaviours we encourage, and the decisions we take.

This is further enabled through the following key drivers that define how we are working to **reinvent taste, care, and wellbeing experiences for more enjoyable and sustainable living around the world**.

1. Act sustainably - Inspire and contribute to a change for the better.
2. Create better experiences - Design solutions that elevate the everyday.
3. Always improve - Think new and never settle.

3. Code of Conduct, Ethics and Helpline

Communicating clear values about integrity and respect for people and the environment is important to remain a trusted company and a sustainability leader. This is not only important for the company and employees, but also for shareholders, customers, and other key stakeholders.
